The following is an examiner's statement of reasons for allowance: this application is a divisional of parent application 10/155878, filed 5/24/2002, now US Patent No. 6718986. In the parent, a restriction to species was required. The instant application is directed to a species that was not elected in the parent. The claims of the instant application are directed to a method for promoting tolerance utilizing an allograft from a donor mammal. The remaining steps for promoting tolerance of the instant application remains essentially identical to the steps set forth in the claims of the parent application. For the reasons the claims of the parent were allowed apply equally to the claims of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
